

## Britz Australia Child Seat policy - The Facts

### RESTRAINTS

The type of restraint required for your child depends on their age as follows:

- Children aged **under six months** must wear an approved, properly fastened and adjusted, rear facing child restraint. Children in this category cannot be seated in the front of our vehicles.
- Children aged **between six months and under four years** must wear an approved, properly fastened and adjusted, rear facing child restraint OR a forward facing child restraint with an in-built harness. Children in this category cannot be seated in the front of our vehicles.
- Children aged **between four years and under seven** must wear an approved, properly fastened and adjusted, forward facing child restraint with an in-built harness OR an approved booster seat which is properly positioned and fastened. Whilst it is legal for a child in this category to sit in the front seat, Britz does not recommend any child under 26kgs or under seven years travels in the front seat.

### WHERE YOUR CHILD CAN SIT

- Children under four years must not travel in the front seat if a vehicle has two or more rows of seats. Front seats in Britz vehicles are not fitted with anchor points and cannot accommodate children **under four** years in any case.
- If all appropriate rear seats are being used by children **under seven** years, children aged **between four and six years** (inclusive) may travel in the front seat, provided they use an approved restraint or booster seat.

### PLEASE NOTE

Britz vehicles are not fitted with child safety barriers for top bunk / overhead beds. Britz recommends children sleep in the lower dinette-converted beds.
