CHILD SEAT  
BACK FACING THE ROAD 0 TO 13 KG  
(GROUP 0+)  
BABY SAFE +

- **Compulsory in all European countries for transporting children.**
- The choice of a car seat is dependent on the weight and height of the child.
- NON-CONTRACTUAL PHOTO.

**DESCRIPTION**

- The ROMER BABY SAFE + seat is designed for group 0+ (from birth to 13 kg).
- It is used in the BACK FACING THE ROAD position by means of a seat belt or the ISOFIX mountings via a base to be purchased separately.
- Seat offering excellent protection for the child in the event of a frontal or lateral impact, as well as excellent comfort on long journeys.
- Instructions are supplied with the seat.

**TECHNICAL CHARACTERISTICS:**

- **Seat approved in accordance with the European regulation ECE R44-04 currently in force.**
- Shell seat approved for children from 0 to 13 kg.
- High sides and a deeper interior.
- Supplied with adjustable canopy (sun visor), headrest and seat reducer for newborns.
- Ergonomic, 3-position adjustable handle.
- 5-point safety harness which is adjusted with a single action.
- Removable, machine washable cover.
- This seat is two-tone grey coloured.
- Weight: 3.9 kg.
- Personalisation of the seat by the embroidering of the PEUGEOT logo on the backrest.

**SALES STATEMENTS**

- Increased safety in a side impact thanks to the higher side parts and the deeper shell.
- Babies are better protected in a RÖMER BABY SAFE + which is used in the BACK FACING THE ROAD position.
- The seats marketed by the manufacturer are tested both statically and dynamically (crash tests).
- Quality seat, very comfortable for newly-borns.
- For comfort, the canopy (sun shield) is easy to fix. It protects the baby's head from over-intense solar radiation. Even fixed, it leaves more room to lay down and pick up the baby.
- The padding under the head pad is very effective in soothing the sensitive backs of the very young.
- Practicality of the quilted and fleecy cover, which can be removed and machine-washed.

- Thanks to its adjustment in three different positions, the child seat accompanies baby in every situation: before, during and after the journey.
- Ergonomic, adjustable 3-position handle, no tilt, no swinging as the handle provides a stable position.
- **In the car, it is installed in the back facing the road position, in the front or back of the vehicle using a 3-point seat belt or an ISOFIX base.**
- The manufacturer's logo provides a touch of elegance.
